

① Home Page.

- Will be same as presentation.
Exactly
- Remove left bar. [use left sidebar]
If possible make awesome color combination.

Key points:

- If possible make use of CSS materialise instead of bootstrap.
- Make use of cards instead of writing formally.

② Title Bar:

- About :- Single Link.
- News :- Dropdown
 - News Release
 - Blog
 - Impact Stories
- Issues :- ~~Single Link~~ Dropdown
 - Create Issues
 - View Issue
 - sign a petition

About

- About US
- Our Team
- Program
- Resources
- Contact US
- Support US

Take idea from Any website
But not replicate from foe.org.

Page 6. ~~Here Issues~~ Login Page. [New & Separate Page].

Header & Footer same

Body content same as previous SIH

Page 7. Campaign Page.

Refer [greenpeace.org](https://www.greenpeace.org)

- Clicking on any campaign will open new page shouting for Join Now. [Act]
- Clicking on 'Join now' redirects to login page and then Joined then asks for sharing picture of their country.

Page 8. Issue Page

Create a tab for 'Issue creation'.

And rest tabs for all issues.

Refer [greenpeace.org](https://www.greenpeace.org)

- Clicking on any issues will open new page for full description and shouts for 'Sign Petition'.
- Clicking on 'Sign Petition' redirects on new page
